THE DAILY AND WEEKLY HERALD has more than double the circulation of any other paper published in Southern California. Business men recognize it accordingly as the best advertising medium South of San Francisco.

SATURDAY, AUGUST 28, 1875.

NEWS OF THE MORNING.

William C. Ralston, President of the Bank of California, went in bathing yesterday afternoon on North Beach, and when out in deep water was seized with what appeared to be a fit. A boat happened out and brought him ashore. Every effort was made to resuscitate him, but without effect. It is supposed that he took poison and swam out to deep water to make suicide certain.

Yesterday was a black day in San Francisco, but our latest dispatches say that the banks will survive the run and that the excitement is abating.

The panic in San Francisco does not and will not affect the banks of Los Angeles. They are all on a sound basis and have an abundance of funds to meet any demand made upon them.

The excitement in San Francisco over the death of Ralston was intense at 10 o'clock last night. The streets were thronged with people; the *Bulletin* and *Call* were denounced by all, and the military was held in readiness to preserve order.

It was feared in San Francisco last night that the death of Ralston would start another panic and that today many of the banks will be compelled to close.

An inquest will be held on the body of Mr. Ralston to-day to determine whether he died of poison or accidental drowning.

The British Minister to China has been insulted in Pekin and has telegraphed home for troops for protection.

A daring attempt at train robbery was made on Thursday night on the Eastern-bound express car near Bitter Creek, Wyoming.

A violent hail-storm took place yesterday near Cheyenne.

An attempt to steal the English crown jewels has been frustrated.

Admiral Worden gave a farewell ball at Southampton, England, last night on board his flagship.

The editor of the *Independent* admits that his paper is a one donkey power concern, but thinks it good enough for the party it advocates. We concur.

The *HERALD* is the best advertised paper in the country. If it's a fair question, Bassett, how much do you give Stephen M. While for his exclusive notice of your paper? — *Anaheim Gazette*.

We got him cheap. Simply announced the fact that he was a carpet bagger of seven months residence in the country.

The *Express* says the same men dictate the Democratic nominations for office year after year. That is true and these same men are the Democrats of Los Angeles county in convention assembled. But the Independent nominees were dictated by two Republicans—General BOUTON and State Gauger BRIERLEY.

What has become of the "dignity and respectability" which the new management of the *Express* boasted would characterize its columns? Why, the concern has become a very fishy woman for billingsgate and can outscold a termagant. Dignity and respectability fit the editorial department of the *Express* about like a purser's shirt would a bean pole—a great deal too much.

THE *Express* indulges in a fling at what it calls "The pennywise sheets" and their editors. If we understand the meaning of the term our cotemporary is talking about itself and its editors and we fully concur in its remarks for a more sycophantic, toadying sheet is not published on the Pacific coast. Still we do not pretend to say its "editors, accumulated and amalgamated in a million years, would not together furnish the constituents for one gentleman" for we are a firm believer in the theory that sometimes something may be adduced from nothing.

THE *Express* of last evening contains a long letter from Senator JOHN P. JONES to his employees in this county instructing them to vote for HOUGHTON. The Senator is presuming too much on the kind consideration shown him by the people of Los Angeles. He probably acquired the habit of issued orders to men in his employ how they should vote while superintendent of mines in Nevada and there his orders might be obeyed, but here they will be received as insults both by his former friends and his hired men. We hardly think BOUTON and BRIERLEY counseled the obtaining of this order from the Senator. They are better managers than that. This attempt to compel men to vote for HOUGHTON will most likely produce the opposite effect.

OUR evening cotemporary affects to be in the best of humor. There is no affection about the *HERALD*'s placidity of temper. We are really and earnestly jolly. The candidates we support are by long odds the best before the people, and their election is as certain as that the sun will rise and set on election day. If their prospects were not so good we should still be jolly, for the existence of the *HERALD* does not depend on the success of candidates whose cause it espouses. It is not boasting of an early enlargement and running dead ads to keep its columns full. It is not kept afloat with enforced contributions from candidates for office. It has a well established and paying business, and has no ghost in the closet in the shape of an election contingency. The *HERALD* is unaffectedly jolly, while its evening cotemporary is trying to whistle as it approaches the political graveyard in which are soon to be buried both itself and its mongrel candidates.

The Financial Situation.

THE news from San Francisco is of a very alarming character. The giant bank of the Pacific coast has closed its doors; closed them, no doubt, upon an empty vault, and as was to be expected the excitement engendered by the startling intelligence caused all the banks in the metropolis to temporarily suspend business, though the prospect is now brighter. The Bank of California has been regarded as the safest depository in existence, and the high repute of its president, together with the exaggerated public opinion as to the mammoth operations and wonderful resources of the institution, only served to intensify the distrust. A money panic is the most absurd of all popular follies, but at the same time the most irresistible. Philosophers as we may, when confidence in the financial institutions of a city or a country has been once shaken, the most profound wisdom cannot always avert the evil consequences of a run upon the banks. Our dispatches afford a faint idea of the rush yesterday morning.

The reopening of most of the banks leads to the hope that the excitement has not reached a point beyond all control, and that to save themselves from complete wreck the bank officials have resorted to a desperate remedy—a remedy which is of a very doubtful character, and which does not seem to have added to the distrust already prevalent. They have done this with the hope that when the situation is better understood the people will act with more deliberation and allow time for repayment of deposits. Whether they can succeed in entirely allaying the popular fear remains to be seen. It will most likely be followed by general suspension of specie payment, and the consequences of that are well understood. This great calamity, coming at a time when it could only have been caused by reckless mismanagement, should lead to an inquiry into the entire financial system of the State. Throughout our Commonwealth prosperity reigns. Never in the history of the State has there been a more satisfactory condition of affairs, and but two days ago all looked forward with hope and confidence to the future. In the midst of a clear sky this evening stroke of lightning has descended, and the most astute financier must be dumb with amazement. The possibilities of a general panic naturally causes an investigation into the banking system of this State, and that investigation reveals some startling facts. In looking over the laws of California we find that banking corporations have been almost wholly freed from restrictions, and released from any supervision over their affairs. This is not the case anywhere else in the world. Wherever banking is known, the law compels a regular publication of the condition of the institution, and generally provides for a regular inspection of the books of the corporation by some public officer. Nor does the public care stop here. Wherever a mixed currency is known, the law compels the retention in the vaults at all times or a certain proportion of the cash liabilities in coin. The lowest reserve compatible with safety has been found to be twenty-five per cent. The laws of Massachusetts and Louisiana, in which states the banks were more stable than elsewhere in the United States before the war, required a reserve of thirty-three and one-third per cent. In California there is no limit whatever, and a bank which owes one million dollars may not have one dollar of coin in its vaults. Such a system must necessarily lead to speculation and disaster. All history proves that bank officials will be tempted by gain to overstep the bounds of prudence, unless the law provides a penalty for such rashness. Some of the ablest thinkers consider that the present system of finances at best is radically defective; and they are certainly supported to a great extent by the periodic panics that visit all countries; but it needs nothing beyond common sense to at once comprehend the danger of a free banking system, without any legal check to the abuse of the privilege of handling other people's money. No sworn statements are published by the joint stock banks of this State, so that any analysis of their condition is impossible. Their capital and dividends are all that the public are allowed to see. Whether they owe ten or a hundred millions, or whether they have any cash whatever to meet their liabilities, remains to be seen. The sham semi-annual dividend of six per cent declared July 1st by the very bank which Wednesday closed its doors, certainly does not warrant the supposition that an accurate statement of the banks now can be had; and if had that it will not increase the excitement. The paid up capital stock of the leading joint stock companies of San Francisco are as follows: Bank of California, \$5,000,000; Grangers Bank of California, \$2,000,000; Land Mortgage Union, \$600,000; Merchants Exchange Bank, \$5,000,000; Pacific Bank, \$800,000; Bank of San Francisco, \$500,000. The National Gold Banks are of course subject to inspection at any time, and are called upon frequently for statements. There are now eight of these in existence; with a paid up capital of \$4,571,270, carrying deposits of \$3,342,913, and having a circulation outstanding of \$2,449,480. Of these the First National Gold Bank and the National Gold Bank and Trust Company, with a capital stock of two and one millions respectively, are located in San Francisco. The Savings Banks of the State are a marvel of growth and prosperity. Their statement of July 1st, 1875, show that

the thirteen doing business in San Francisco have deposits of \$59,133,900 from 67,997 depositors, and that they have loaned \$60,885,503, and have cash on hand of only \$1,501,193. The twelve interior Savings Banks hold \$13,588,433 from 24,442 depositors; have loans and investments to the extent of \$15,665,666, and cash on hand, \$883,285. The \$73,000,000 deposited in these Savings Institutions belongs to the most timid and excitable part of the community, but as notice of withdrawal of deposit is almost universally required, the very small cash reserve may be sufficient to meet the requirements. Whether the loans and investments are upon a safe basis cannot be determined, for here, too, the law has placed very few restrictions, and the realization of their assets may develop the fact that the speculators have carried them beyond the bounds of prudence and safety. We think it would be well, therefore, for the next Legislature to take up the financial question and impose some wholesome restrictions upon the custodians of our wealth. Even if it be too late to avert disaster, it will provide against loss and depression in the future. Regarding our own banks in Los Angeles, there need be no alarm. They are almost wholly disconnected with the banks of San Francisco; their funds are used only in local and legitimate enterprises, and they now have an abundance of coin on hand—more than sufficient to meet all their demand deposits. They are in a better position than at any time for several years past, and will soon be filled to overflowing as the crops are marketed.

Forgets His Pledge.

Mr. G. L. RUSSELL was a candidate before the Democratic county Convention for Assemblyman. He made the pledge required of all the candidates and was defeated. He is now traveling over the county working against Mr. ROWAN and Mr. RYAN. Besides violating his pledge it will be seen by the following letter published in the *Anaheim Gazette* that he does not confine himself to truthful statements:

EDS. GAZETTE:—The statement made last night, that the returns of Los Nietos precinct were changed after being placed in the hands of Mr. A. W. Ryan, in favor of myself, and against Lamborn, is asserted to be utterly false in every particular, and hold myself ready to prove that it is so. As to Russell's charge of Ryan using his influence to defeat him in the Convention, and voted for Russell. From the personal friendship existing between Mr. Ryan and myself, he would have been as likely to use his influence with me with any other man, yet he did not do so to the detriment of Mr. Russell, or in any way whatever, and I believe the same was the case with the entire delegation from Downey. I would further state that Mr. Lamborn, two years ago, expressed himself satisfied that the result of the primary election, as declared by the County Committee, was just and in accordance with the returns. Anaheim, August 26, 1875. J. W. VENABLE.

Reported Suicide of Ralston.

SAN FRANCISCO, August 27th—5:20 P. M.—Ralston has drowned himself.

SAN FRANCISCO, August 27th—5:30 P. M.—The rumor about Ralston having suicided is now contradicted.

SAN FRANCISCO, August 27th—5:40 P. M.—Ralston it is now reported jumped off Selby's wharf into the bay. He was pulled out of the surf and rolled, but to no purpose.

LATER.

He is Dead—Details of His Death, Which Indicate Suicide.

SAN FRANCISCO, August 27th—9 P. M.—W. C. Ralston, President of the Bank of California, went to North Beach to bathe, and is supposed to have been taken with a fainting fit. He was taken from the water in an insensible condition, and, to all appearances, dead. Efforts are being made to resuscitate him, with a hope of success.

The accident occurred near the old hulk in the cove near the smelting works. He had undressed himself and left his clothes on the beach, contrary to his usual custom, which was to go to the bathing house to disrobe. He had swam out in the current once and was about venturing out again, when he was cautioned against it but paid no attention to the advice given. Soon after he reached the deep water and strong current he was observed to sink. A boat immediately put out and got his body while it was still on the surface and brought it ashore, where it was rolled on a barrel, rubbed with flannels, and every means taken to resuscitate him. The muscles twitched convulsively as if in a fit, and his breathing was heavy.

The news was immediately brought to town, and Capt. Lees, Mayor Otis and other friends were soon on hand and every effort made to restore him. When taken ashore he was not removed from the beach, but the labors to resuscitate him were carried on immediately at the scene of the calamity.

LATEST.—All efforts to restore animation proved fruitless, and shortly before five o'clock life was extinct. From the convulsive jerking of the limbs and frothing from the mouth and other symptoms usual in case of poison, it is thought by many that he had first taken poison with the determination of ending his life and then swam out into the bay to render the attempt effectual beyond a doubt.

Excitement Over the Death of Ralston.—The *Bulletin* and *Call* Denounced.—The Military Out to Preserve Order.

SAN FRANCISCO, August 27th—10 P. M.—The excitement over Ralston's death is intense. The streets are crowded with people discussing his tragic end. Now that he is dead, people remember his good qualities and

forgive his faults, he having done much good for California in assisting different enterprises.

The *Bulletin* and *Call* are denounced on every side as the cause of the trouble, and threats are made to mob both offices to-night.

The military are ready to assist in quelling any disturbance.

The death of Mr. Ralston will again unsettle affairs, as there are doubts as to the ability of the bank to pay up in full.

An inquest will be held on Ralston's body to-morrow and a post mortem examination will be made to settle the questions of suicide or accidental drowning.

LATER.—During the evening the feeling against the *Bulletin* and *Call* became very intense and a riot was feared. Troops were under arms ready to assist the police in preserving order. About 8 o'clock indiscreet policemen attempted to secure wild steer by shooting twice, which caused rush of crowd to the locality; and to check the torrent of supposed riotous people some of the companies were brought out, but instantly ordered back when cause of tumult was made known. All quiet at midnight.

San Francisco News.

SAN FRANCISCO, Aug. 27th.—It is stated, on good authority, that some half doz. heavy stock brokers are likely to go down. No names are given. No commercial failures are yet reported. A squeeze is expected next Monday, as it is collection day. The Savings Banks during the day have been doing the usual business, the deposits in some being larger than the disbursements. No excitement on that line.

Aug. 27th, 2:30 P. M.—The excitement has almost subsided, and the banks are going along quietly with their business. The street is not so crowded and everything has a more cheerful and promising outlook.

The Merchants' Exchange Bank closed this morning. The Directors have prepared the following notes for the afternoon papers: "In consequence of the excitement and disappointment in getting the Directors to meet all demands without trouble, and everything that may be owed, not to open our doors for the present." The Secretary states that the bank has one hundred thousand dollars in coin on hand. The amount liable on deposits is eight hundred thousand dollars, and the bank is perfectly solvent, the only trouble being the lack of coin. There is a run on the London and San Francisco bank, but the manager, Latham, asserts its ability to meet all demands without trouble. Crowds surround the Bank of California and the suspended National Gold Bank, the Trust Company and also the Savings Banks, but the action of the officers of the latter institutions last night effectually prevents a run on them. The excitement is great.

The Santa Ana Meeting.

SANTA ANA, Aug. 27th.—A large and enthusiastic meeting was held at Santa Ana this evening, evening by Frank Canahli, and other speakers. Excitement intense.

CALIENTE, Aug. 27th.—The following passengers left on the Telegraph Stage Line for Los Angeles: F. E. Brown, C. Leonard, W. Life, H. Dalton, R. H. Burmaster, Mrs. Lanthorn and D. Palmer.

EASTERN NEWS.

How it was Received in New York.

NEW YORK, Aug. 27.—The news of the suspension of the Bank of California, this morning, produced considerable excitement among the merchants and creditors generally, of that institution in this city. The offices of Laidlaw & Co., Agents of the Bank in this city, have, since the opening of the doors at an early hour, been thronged with anxious inquirers. In obedience to instructions received by telegraph, no checks were cashed.

Coin to Newmarket.

WASHINGTON, August 27.—Heavy transfers of gold to California are being made by the Treasury Department to-day, in support of the Banks of that State, upon official notifications which are being received at that Department that Agents of the banks have deposited gold with the Assistant Treasurer at New York. Telegraphic instructions are sent to the Assistant Treasurer at San Francisco, placing credits to the respective banks making such deposits in New York. Thus far \$1,000,000 have been transferred.

The British Minister Insulted.

NEW YORK, Aug. 27.—Dispatches from Europe state that Mr. Wade, British Minister at Pekin, has asked the Government to reinforce the British troops in China. In his intercourse with officials at Pekin he has been treated with studied insolence. Demands which he has made for the compensation for a sudden rally. The News in London.

NEW YORK, Aug. 27.—A dispatch from London says the market shows a fair degree of firmness, and in most cases is notably higher. Financial and commercial circles were thrown into a state of the greatest excitement at the opening of the Bank of California, and for a time the greatest confusion existed in the Gold and Stock Exchanges, the prices rising plump to 114, while stocks declined one to two per cent. on free pressure of sale. At the opening of the stock exchange there was a rush to sell and for a time the noise and din was equal to a first-class panic. An idea of the din and racket may be formed when it is stated that up to the closing of the Board the amount of shares transacted reached over seventy-four thousand. The anxiety to sell at first was marked, and prices dropped quickly and severely to the market, and before the Board closed there was a sudden rally. Lake Shore moving up to 503; Northwestern Common to 414; St. Paul Common to 374; the preferred to 63; Pacific Mail to 384; Western Union to 824.

EASTERN NEWS.

Excitement in New York.

NEW YORK, Aug. 27.—The offices of Laidlaw & Co., agents of the Bank of California here, have been crowded all day with parties holding checks on the Bank, but agents refused to cash checks. It was stated that bills of exchange would probably not exceed \$200,000. Up to the present there has not been very much excitement on stock exchange or other boards over the California failures. One leading banker said to-day that deposits of Bank of California were probably equal to ten millions of dollars. They usually hold two million in coin. The Central Pacific R. R. has an account with the Bank. A convention of the managers of all the branch commission agencies in the U. S. has been in session for the past three days at St. Nicholas hotel for the purpose of facilitating the means of information, and considering the situation generally. Mr. Sprague, a member of the commercial agency in Worth street, says his opinion is, there was a degree of suspicion attaching to all houses which have made extended credit, or placed their resources beyond their control instead of husbanding them. And that it would apply to the West partly to a greater extent than elsewhere. The opinion of the Convention was, that there was much better feeling, and more prosperous times were in the near future in this city. There is much improved feeling in business circles, and no heavy failures are feared amongst the merchants here, but small dealers are closing every day. Failures are expected in the West. The lumber dealers were mentioned particularly as being overloaded, and another stringency is on hand. Iron failures in these directions will not be surprising.

Collision and Loss of Life.

DETROIT, Mich., Aug. 27th.—Canadian Steamer Manitoba collided with ship Comet last evening at Whitefish Point and sank her instantly. Ten lives were lost and ten saved, including the Captain and Mate. No one was injured on the Manitoba.

MADRID, Aug. 28th.—The truce at DeUrgel having expired, the besieged have capitulated unconditionally. Gen. Dorregaray and the Bishop of DeUrgel have been captured by the Alfonsists.

Crown Jewels in Danger.

LONDON, Aug. 28th.—An affair has occurred at Windsor Castle, which has created quite a sensation. A box was found in a water course near the Castle containing one hundred and twenty-five false keys to the Royal Jewel room. It has been satisfactorily proved that the box and contents were part of a plan to steal the Royal jewels. The keys were found to fit the locks exactly. It has not transpired by what means the plan was baffled, or how the box came to be found in proximity to the Castle. The case is under investigation.

The Banks.

SAN FRANCISCO, August 27th.—The run upon the banks was practically over before twelve o'clock. The Merchant's Exchange Bank did not open, posting the reason on the door. The Trust Company did not open, of course, having closed till Monday. The London and San Francisco Bank and the Anglo-California Bank both received to-day telegraphic drafts on the Sub-Treasury in these sums: Five hundred thousand dollars to the former bank and one hundred and fifty thousand dollars to the latter, which formed a strong reserve, and the intelligence of the transfer served to lift the public confidence very materially. This feeling was strengthened by the fact that no commercial failures were reported, and so far as known no seri-

ous trouble was anticipated in any quarter, unless it might be in manufacturing establishments intimately connected with, if not entirely dependent on the Bank of California. The officers of the various banks seemed to have regained their usual equanimity, and to believe that the worst was over. Another reassuring feature was the assurance of the officers of the Trust Company that that institution will soon resume, and conduct business without further interruption. The London and San Francisco Bank Limited expect to receive three hundred thousand more through the sub-Treasury to-morrow. The Stock Board, in stopping all transactions, was certainly very wise, and went a long way towards rendering possible a solution of the troubles and an early resumption of stock business.

EASTERN NEWS.

Attempt at Train Robbery.

BITTER CREEK, W. T., Aug. 27th.—At midnight three men on top of the eastward bound express car, one of whom effected an entrance through the window, took the keys out of the Messenger's pocket and unlocked the safe and had gotten the treasure, when the Messenger awoke and was fired at by one of the robbers on top of the car. The Messenger pulled the bell cord, the train stopped and the robbers made their escape. It is supposed they got on the train at Table Rock or Bitter creek. It is not known what amount of money they got.

Violent Storm.

Lientz, Maiden Lane. Mr. D. has recently been in a heavy trade with New Granada. Large debts are due the firm in New Granada, estimated at from two to three hundred thousand dollars, including a residence valued at \$30,000, and considerable real estate in this city and country.

Perry, Woodworth & Co., have a lumber yard in Colton.

Dr. Hobbs will preach at Orange, next Lord's day.

County Assessor Alvord, of Santa Barbara, is in the city.

Electioneering is brisk. For cheap votes apply to Judge Thompson.

Information is wanted of N. Schneider. Leave word at the post-office.

Los Angeles is not effected by the Bank of California failure.

Don Marcus Foster, of Los Flores, was in the city yesterday.

W. C. Ralston has his life insured for \$100,000.

Santa Ana was aroused last night by the Democratic speeches of Ganahl and other orators.

City Clerk Kremer, returned yesterday from his canvass of the county, in which he has made hosts of friends.

Jose G. Estudillo, the Democratic candidate for State Treasurer, is expected in Los Angeles to-day.

Los Angeles Grange, No. 36 will give a Harvest Feast to-day, at Grange Hall.

Anaheim is exercised over the location of a notorious house next to the church.

Rev. A. M. Campell of the M. E. Church, South, has arrived in San Francisco.

A good cook wanted for a first-class post. Call at this office. No Chinaman need apply.

Gold in New York yesterday was 13 1/2 per cent premium. Greenbacks bought at 87 1/2 and sold at 88 1/2.

Remember the Turn-Verein picnic to-morrow for the benefit of the Hospital Fund, at Washington Gardens.

The auction sale of books last night at Main and Arcadia, was well attended. Capt. Moore, the auctioneer, sells them without reserve.

The steamer Los Angeles from San Francisco, will arrive at Santa Monica early this morning, and leave on the return trip at 10 A. M.

Mr. H. L. Barnett, of Barnett Bros. arrived yesterday from San Francisco with a splendid stock of cigars and smoking articles.

In the Christian Church, Elder G. R. Hand will preach on 11 A. M. and 7:30 P. M. August 29th, at the Court House. All are respectfully invited.

Judge Thompson will speak to-night. We hope he will explain where those cheap votes can be obtained. His Independent friends need them.

The first monthly meeting of the teachers of this city was held at 2 o'clock yesterday afternoon. They brought their reports and submitted them to the Superintendent.

Turkeys, chickens, quails, and every other haveable luxury is served up daily at the Barnum Restaurant. Enchiladas served every Sunday for dinner.

We learn by the San Bernardino Guardian, that Capt. Sayward, of Riverside, is employing eighty men on his canal enterprise, and that the work is progressing favorably.

The raffle at the Senate to-night will be a lively affair. All the experienced dice manipulators will be present to try their luck for Joe Breson's celebrated pacer.

In our travels yesterday every other man we met said he had expected the failure of the Bank of California for some time. Hindsight is just as good as foresight if you don't have any money in the bank.

George Francis Train is said to have predicted the failure of the Bank of California some years ago, but as he has also prophesied the shaking of thrones, the liberation of Ireland and the reign of Woodhull, we can hardly credit him with any prescience.

The confirmation of Rev. Mr. Edelman's son takes place this morning in the Synagogue at 10 o'clock. A reception will be given from 2 to 6 P. M. at the residence of Mr. and Mrs. Edelman. No printed invitations are required at the confirmation in the Synagogue.

Among the shipments yesterday were three barrels of wine from John Moran to New Jersey and New York; four pipes of wine for New York; one barrel of whiskey to Colton; 190 boxes of men to Littlefield, Webb & Co., of San Francisco; 100 joints of artesian pipe to Norwalk.

Mr. H. T. Payne, photographer, yesterday exhibited to us some fine large photographic views of the residence of ex-Mayor Toberman, and Judge Nichols. The subjects are as fine as can be found in the city, and Mr. Payne has handled them with that exquisite taste for which he has attained an enviable reputation.

Vahle, the Ballona wife murderer, was sentenced to ten years in the Penitentiary. He received his sentence without any manifestation of feeling, no doubt glad that his precious neck had escaped the hangman's noose. Wife murder will likely become a popular amusement to designing husbands. It is safer than horse stealing.

Mr. Tobias, the Commercial street tailor, made a narrow escape from being run over yesterday, by a fast drawn hack. As it was he escaped with but little injury. He will be remembered as the gentleman who covered sometime ago \$300 from Hewitt, for injuries done by the hack of the latter. Mr. Tobias seems to be destined to be a victim of hackmen and naturally feels aggrieved.

The confirmation at the Synagogue will take place this morning at ten o'clock, and all are invited. To Christians and non-professors, especially, this will be an interesting ceremony and we hope to see the Synagogue crowded.

Superintendent Lucky received the Quarterly Examination Papers yesterday from the State Superintendent. It was quite a formidable looking document, and is to be opened only by the Superintendent in the presence of another member of the Board of Education.

Prof. Steen, after finishing up his business in this vicinity, which will take him several months, intends going to Philadelphia, where he will become a partner of Signor Blitz in the Concert Hall performance. He holds a circle to-morrow night in the parlor of the Lafayette Hotel.

The Committee of Arrangements for the picnic of the German Benevolent Society at Washington Gardens on Sunday, have made arrangements with express wagons and busses to take passengers to the Garden for 12 cents, or two street car tickets, each way, starting from the back stand on Main street. They also have taken steps to have extra street cars run in the evening and during the night.

Mr. I. Lankershim, of San Fernando Ranch, who is at the St. Charles Hotel, is a large stockholder in the suspended Merchants Exchange Bank of San Francisco. He informed us last night that the capital was \$5,000,000, and stock had been worth \$118 a share before the suspension, the par value being \$100. Mr. Lankershim has every confidence in the resumption of the bank at an early day.

The poor men were the easiest in mind yesterday in the midst of the financial excitement. A man who is in debt always takes a philosophic view of this matter and witnesses the shattering of banks with the utmost nonchalance. A crisis every now and then is the great leveler which makes a poor devil satisfied with his lot and makes him look with contempt on riches—when the money is not in a defunct banking institution like the Bank of California.

Mr. I. Goldsmith, of the Identical, No. 38 Main street, is now selling out his gent's furnishing goods, preparatory to making his business exclusively tobacco and cigars. The old stock must be sold out in sixty days and bargains will be given to all comers. The Identical has now a stock that pleases all lovers of the weed, comprising the most famous brands of domestic and foreign manufacture which are sold at a low figure. We heartily recommend smokers and chewers to give our friend Goldsmith, proprietor of the Identical, a call and test his stock to their satisfaction.

We find the following notice of our old friend, Judge DeLong, in the *Spirit of Kansas*, published at Lawrence, Kansas: "Judge James De Long, who was for several years the efficient Mayor of Independence, this State, but who has now made Los Angeles, California, his permanent home, called at our office to-day. We were pleased to see the Judge here, and extend to him a hearty welcome. The Judge is very much delighted with Southern California, and regards that portion of the State as destined to be one of the most delightful places in the world in which to live. In point of climate, agricultural and mineral resources, it has no superior. The Judge is here in the interest of the State, and will cheerfully furnish parties who desire to immigrate with all the information they may desire in regard to the country. The Judge has our thanks for a bottle of splendid California wine; also a liberal supply of the finest cigars and cigars ever came from the Pacific coast. The Judge is stopping with Osborn Shannon, Esq., son of Judge Shannon. We are sorry to lose Judge De Long as a citizen of our State, and our best wishes go with him in his new home."

NEW PATENTS.—Through dispatches to Dewey & Co., Patent Agents, S. F. we receive the following advance list of patents granted to Pacific Coast inventors, viz: D. A. Manuel, Napa, Cal., gang plow; R. L. Ogden, S. F. carriage; W. N. Bell, S. F., marking wheel; C. V. B. Reeder, San Jose, Cal., bed bottom; L. Schrader, Walla Walla; J. W. T. Cultivator; Leland & Co., S. F., Trademark for whiskey.

An Express Falsehood Nailed.

EDITOR HERALD: The *Express* is using its best efforts to prove that M. White will receive a majority of the votes of the members of the bar of this county, for District Attorney. The statement has put me on careful inquiry, and find, out of the fifty lawyers here, not more than one dozen favor the election of White; the balance almost to a man being favorable to Rodney Hudson, the Democratic candidate. AUG. 27, 1875. LAWYER.

Houghton Repudiated.

The following dispatch speaks for itself. Even leading Republicans are repudiating Houghton: *MODESTO, Aug. 27, 1875.* **EDITOR HERALD:** Rev. J. H. Maddox, Republican nominee of this county, in a speech at Waterford on the 26th declared he would not vote for Houghton. J. D. SPENCER.

On what authority does the *Express* say that the new comers to this county will go with the mongrel ticket?

LETTER FROM ORANGE.

A Ditch Meeting.—The Anaheim Railroad—The Banana—New Store—Revival Meeting.

EDITOR HERALD: A ditch meeting held last Saturday week was largely attended from all sections. The formation of an irrigation district was favorably discussed, and a committee to solicit signatures to a petition for the formation of a district under the Bush act. After this is accomplished a new and large ditch will be taken out at Red Rock Cañon, opposite the Cajon ditch, now being constructed by the Anaheim people. The irrigation facilities of Orange Valley will then be complete.

THE ANAHEIM RAILROAD.

The extension of the Anaheim Railroad across the Santa Ana river is the important theme of conversation now. The work has not yet been commenced, though the time is now overpast by three weeks. Everybody wants one of the depots on his land, but as all cannot be accommodated, the R. R. Co. will probably settle the matter by building the chief depot on the hundred acres recently procured by them of the San Joaquin Ranch Company. There are rumors in circulation to the effect that a portion of the great ranch is to be cut up and sold in small lots in a short time. The ranch comprises about 10,000 acres, and is situated so this movement will make room for an immense increase of population.

THE BANANA TREES.

Mr. P. Bowers has a banana tree two years old and twenty feet high, that has on it a cluster of ripening bananas nearly three feet long. Dr. S. Beach has several plants one year old, with fine growing clusters of fruit on them. His plants were apparently ruined by the great frost, but they are now entirely recovered, and next year will be large enough to resist any probable frost. Many persons here think that banana growing will soon become a great interest, almost equalling orange cultivation in importance. There are several pineapples growing finely, on the place of Messrs. Bowers and Malata. Mr. Bowers has also a flourishing mango tree six months old. Dr. Hobbs, of Los Angeles, has been here prospecting for a location for a new sanitarium over the foot-hills. A cannery company was recently organized and grounds have been selected.

NEW STORE.

Mr. J. E. Edwards of San Francisco, is opening up a full stock of drugs, stationery and fancy goods, in Dr. Beach's building. A union revival meeting has been held nearly every night for three weeks past. Ministers of several denominations have assisted, and special aid has been rendered by Bro. Stoveall, of whom we know nothing except that he is a revivalist. His success is not equal to that of his distinguished contemporary, Moody, as only one convert is reported from three weeks' work. The meeting is pronounced a success in other ways, however.

Orange, Aug. 24, 1875.

The Colored Voters.

On Monday evening, August 15th, the colored citizens of Los Angeles met in mass meeting to determine upon the course they should pursue in the present political campaign.

The meeting was organized by the election of J. Fletcher Gordon as Chairman and J. M. Redding as Secretary.

The Chairman very briefly stated the object of the meeting, when, on motion, the following Executive Committee was elected to attend to the political affairs of the colored people of this city: J. Fletcher Gordon, Chairman; J. M. Redding Secretary; Philip Pearson, George Van Buren, Lewis Green.

On motion, the colored people agreed to support the Republican State and Congressional ticket, leaving the making up of a county ticket to their own election.

The committee were instructed to look after the registration of the colored voters particularly and of others generally.

The name of Lue Green has been dropped from the committee for non-attendance upon its sessions.

J. FLETCHER GORDON, Chm'n.

J. M. REDDING, Secretary.

Los Angeles, August 25, 1875.

D., of San Francisco, will preach the sermon in Good Templars' Hall at 11 o'clock A. M. The charge to the pastor and the charge to the people and other interesting exercises, conducted by the Presbytery of Los Angeles, will occur at half-past 7 o'clock P. M. au27 3t

OFFICE OF CHARLOTTE CON-

solidated Gold Mining Co.—The property of this Company, after careful development, has yielded returns beyond their expectations, and every indication thus far points to a still more valuable result. The various and reported assays and the result by assays proves that there is ore yielding from \$30 to \$400 per ton, and the Company feel themselves warranted in the statement that these mines are permanent and valuable ledges. In view of those facts they have authorized the sale of a very limited amount of stock, for working capital, at \$5 per share. The development of the property will inevitably result in the employment of a number of men in the district in which they are situated, and in the end build up a camp of no inconsiderable size, the workers of which must be drawn from our midst. The Directors feel themselves justified in recommending this stock to the confidence of the business men as well as to the general community of Los Angeles.

Stock can be obtained of the Treasurer, Mr. C. F. Heinemann, or of the Secretary at the office of the Company, or by application to Messrs. Barbee & Gates, Brokers, Commercial street.

TASTELESS MEDICINES.

A PROMINENT NEW YORK PHYSICIAN lately complained to Dundas Dick & Co. about their Sandalwood Oil Capsules, stating that sometimes they cured him miraculously, but that a patient of his had taken them without effect. On being informed that several individuals were sold, he inquired and found his patient HAD BEEN TAKING DUNDAS DICK & Co.'s.

What happened to this physician may have happened to others, and Dundas Dick & Co. take this as a lesson, and are now offering the PURE OIL in the BEST and CHEAPEST form.

Physicians who prescribe the Capsules will be surprised to find that the PURE OIL is sold cheaper in their Capsules than in any other form.

DR. DUNDAS DICK & Co. is fast superseding every other remedy, sixty Capsules ONLY being required to insure a safe and certain cure in six or eight days. From no other remedy can this result be had.

DR. DUNDAS DICK & Co. SOFT CAPSULES solve the problem, long considered by eminent physicians, of how to avoid the nausea and disgust experienced in swallowing, which are well known to detract from, if not destroy, the good effects of many valuable remedies.
